

# NISSAN INDEX OF BATTERY GROUP SIZES

Battery group size designations are standardized codes that categorize batteries based on their physical dimensions, terminal placement, and electrical characteristics. These codes include both numbers and letters, with the numerical part indicating the battery case size and the alphabetical part providing additional details such as terminal positions and orientation

Group	Figure	Dimensions (Inches)			Nissan Part Number	Replacement Part Number
		L	W	H		
22F		9.50	6.9375	8.3125	99996-00093	999M1-AA25C
24		10.25	6-13/16	8-7/8		
24F		10.75	6-13/16	9	99996-00034	999M1-AA24C
24F		10.75	6-13/16	9	99996-00089	999M1-AA35F
27F		12.50	6-13/16	8-15/16	99996-00092	999M1-AA27F
35		9-1/16	6-15/16	8-7/8		
35F					99996-00090	999M1-AA35F
50		13.50	5.00	10.00
