Fuel - Injector Replacement Interchange

SERVICE INFORMATION

When fuel injector replacement is required, the following interchangeability information should be noted to avoid selecting a wrong injector.

INTERCHANGEABILITY INFORMATION

Injector assemblies are available in different colors (ie., the metal ring at the fuel inlet is either green, blue, black or brown) and different makes (ie., JECS or DKC). The color indicates the characteristic of the injector.

Therefore, replacement injectors (replaced either individually or as a set) should be the same color as original injectors. There is no difference between injectors made by different makers.

INTERCHANGABILITY EXAMPLES

Yes Interchangeability

The following are examples of injectors that are interchangeable:

ORIGINAL INJECTOR REPLACEMENT INJECTOR
(Make/Color) (Make/Color)

DKC/BUE JECS/BUE

JECS/BLACK JECS/BLACK

No Interchangeability

The following are examples of injectors that are not interchangeable:

ORIGINAL INJECTOR REPLACEMENT INJECTOR
(Make/Color) (Make/Color)

DKC/BUE DKC/BLACK

JECS/BUE DKC/GREEN
